

see. touch. believe.

Behold the SAMSUNG Behold™. This touch screen device is so advanced, it reacts to your every touch. In other words, you'll know precisely when you've activated the 5.0 megapixel camera, or the full HTML browser, or the MP3 player, or the advanced GPS Navigation system. And once you've touched the Behold, you may never stop.

qwerty touchpad

The Behold has a QWERTY touchpad that's accessible in landscape or portrait mode, you'll be able to type – and communicate – faster.

full html browser

With a full HTML browser, the Behold lets you surf the Web better than ever. View your favorite sites. Bookmark your favorite sites. And do it all quickly.

5.0 megapixel camera with camcorder

5.0 megapixels means the Behold is a very serious camera. That means you'll be able to take seriously beautiful pictures whenever the moment presents itself. The Behold also has a camcorder, so you'll be able to take beautiful videos, as well.

customizable widgets

On a device like this, the quickest way to move around is with widgets. Since the Behold supports widgets, you'll be able to get into your favorite applications faster than ever.
