

# take your best shot.

Is the SAMSUNG Memoir™ a mobile phone with a camera? Or a camera with a mobile phone? Either way, with 8.0 megapixels, a Xenon flash and a host of dedicated camera functions, the Memoir sets a new standard. But the Memoir™ doesn't stop there. It's also a music player, a full Web browser, a GPS navigation system and one of the most advanced touch screen phones in the world. Smile.

## 8.0 megapixel camera

With 8.0 megapixels, the camera built into your mobile phone finally approaches professional quality photography. But this story doesn't stop at megapixels; the Memoir™ also features a Xenon flash, auto focus, multiple shooting modes and Smile Shot smile recognition technology. Plus, there's a camcorder that lets you shoot beautiful videos up to one hour in length.

## picture sharing

The Memoir™ also makes it easy to share those beautiful photos. You can upload your images online to Flickr®, Kodak Gallery, Snapfish™ or Photobucket. And with the TV-Out feature, you can connect your Memoir to your TV and share slide shows with family and friends.

## advanced touch screen with widgets

This is the touch screen people love to touch. The Memoir™ has a fully customizable screen that reacts in a tactile way to your touch. And with drag-and-drop widgets, you'll have quick and easy access to all your favorite tools, applications and entertainment.

## music player

Sure, the Memoir™ takes beautiful pictures. But it also makes beautiful music. And with a microSD™ memory capacity of up to 16GB, it can play a whole lot of it.

ENERGY STAR®

## advanced gps

With the advanced GPS navigation system built into the Memoir™, you get audible turn-by-turn directions to almost anywhere you want to go. Plus, using TeleNav®, you can easily enter a specific address or search for local businesses.

Powered by an ENERGY STAR® qualified adaptor for a better environment.
